Response to Arguments

Applicant's arguments, see Remarks made in an amendment, filed 11/09/2006, with respect to one skilled in the art would not apply sonic energy to a wet etch solution while etching a submerged trapezoidal shaped waveguide to form substantially rounded edges (as on page 8) have been fully considered and are persuasive. The rejection of the office action filed 8/4/2006 has been withdrawn.

Allowable Subject Matter

Claims 1-4, 7-22 allowed. The following is an examiner's statement of reasons for allowance: Prior art neither suggests or discloses apply sonic energy to a wet etch solution while etching a submerged trapezoidal shaped waveguide to form substantially rounded edges.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
